Professional Summary

Computer Science and Engineering graduate with hands-on experience in Python and Microsoft Office. Detail-oriented, organized, and comfortable handling accurate, repetitive, and deadline-driven tasks. Seeking a Data Entry Operator position where I can apply my technical skills, contribute reliably, and continue learning.

Skills

- **Office and Data Handling:** Microsoft Office (Word, Excel), data entry and record management, Excel and JSON data conversion, file handling, Canva
- **Programming Languages:** Python, C, C++, Java, C#, Dart, HTML, CSS
- **Mobile Development:** Flutter, Provider, Firebase, SharedPreferences, REST API integration
- **Web and Database:** Django, MySQL
- **Tools:** Git, GitHub, VS Code, Visual Studio, Unity, Godot, Flame

Projects

Python Utility Tools

- Built an Excel to JSON converter, Image to PDF converter, image resizer, auto clicker, Flutter launchpad etc.
- Focused on file handling, GUI design, and productivity workflows

RideSchedule (Django and MySQL Web App)

- Built a scheduling platform for riders and drivers with user authentication, schedule management, and database operations

Hospital Management System (Java)

- Created a desktop application to manage patient records, appointments, and hospital information

Flutter Mini Projects

- Built a real-time location tracker, task manager, and contact manager while learning Flutter
- Built a Flappy Bird game using the Flame engine
- Used Provider, Firebase, SharedPreferences, and REST API integration at a basic level

XR Privacy Vulnerability Assessment (Thesis)

- Analyzed XR head and hand motion data to identify privacy vulnerabilities using machine learning techniques

Mini-Compiler (Python)

- Built a lightweight compiler that translates C-like source code into assembly, with type validation for int, float, bool, and char

Fast Line Follower Robot

- Built an autonomous robot using Arduino, QTR sensors, and motor drivers, with line detection and speed optimization for competitions

Game Development Projects

- Third-person shooter prototype in Unity, 2D platformer prototype in Godot, and Pacman and Bounce Ball games in C++

Education

Bachelor of Science in Computer Science and Engineering, December 2025
University of Asia Pacific, Dhaka | CGPA: 3.51 / 4.00

Higher Secondary Certificate (HSC), 2020
Dhaka City College | GPA: 5.00 / 5.00

Secondary School Certificate (SSC), 2018
Shamsul Hoque Khan School & College | GPA: 5.00 / 5.00

Achievements

- Dean's Award Recipient (3 times)
- KUET BitFest 2025: Line Following Participant
- National Robotics Championship 2025, BUBT: Participant
- Robo Expo 2.0, UAP 2024: Participant

Languages

- Bangla: Native
- English: Fluent
